Title: member - Shoshone Nation

COMMENTS:

The whole idea of shipment of waste to Nevada is against all forms of life and the property of the western Shoshone Nation. Against all opposition of all citizens of Nevada, it is a bad idea. Until the violations of the Treaty of Ruby Valley is properly addressed, the Shoshone Nation would state NO to this plan. Nevada is not a dump for the Nation. Each state with waste should address this issue in their own state. The production of power with waste that will outlast who ever is reading this. Elimination of such method of reproducing power should be outlined.
